

Broadcast

Reach out to particular groups of patients or customers by sending customized messages.

“Hello, this is Women’s Associates calling you with an important message...”

Key features of Broadcast:

Simple to use: Decide who needs to be called; record your message; and designate when the calls are to be made.

When you need it: Set it up from anywhere at any time. Manage your recordings and settings online. Launch a Broadcast call ‘on the fly’ from a remote location.

Personal it: Customize the message to say what you need it to say - record the messages in your own voice.

No contract or commitment: Use it whenever you need it, as often as you need it. Perfect for occasional use or for seasonal businesses.

“ We are very pleased with the service so far. I have enjoyed working with your staff and I wanted to let you know that they have made this a smooth process for us. ”
- Office Manager,
Medical Healthcare, PA

- Emergency message due to inclement weather.
- Flu shots announcement to patients.
- Announce a new business location, provider, or service.
